

This eye-opening anthology strives to bring to the table conversations about sexuality in the 90s as experienced by today's young adults. After all, they are the first generation of Americans whose outlook on sexuality has been shaped by condom ads and messages about AIDS on television, by accessible birth control at high school, and by the medical risk and possible fatal consequences of having unsafe sex. Written for young urban adults 18 to 35 years old, 2 Sex E (Too Sexy) is about the everyday discussions they have about sexual issues. And just like conversations in their daily lives, these essays are alternatively frank, funny, bittersweet, and hopeful.
