

Wild, arrogant and charismatic rock star Kell Pierce has left his band Feral Silence, leaving rampant speculation and mourning fans in his wake. Indie journalist Emily and her best friend Dylan get the biggest break of their careers when they're hired to write about Kell's journey to solo stardom. Emily is determined to prove herself in the industry and show the real Kell to the world. Easier said than done. Not only does Kell have a raging ego and the attention span of a flea, he's also a consummate flirt who thrives on toying with boys and girls alike. Although Emily has pined after her best friend for years, she can't help falling under the bad boy rock star's spell. But as she gets closer to uncovering the real Kell, Emily sees hints of a complicated man peeking through. Everyone wants to know why Kell left Feral Silence but he's not talking, and neither are the friends he turned his back on. Some secrets are too important to share. Feral Voice is a sexy rockstar romance with MFM menage scenes. It is the second novel in the Feral Silence series, but can be read as a standalone with a HEA. A note from the author: This book is complete and utter fangirl wish fulfillment. It is not realistic at all.
