

Some SpecOp assignments are more fun than others...Â Matt Coleman. Task Force Zetas computer expert. Certified genius. Dateless loser. Hes getting damned tired of watching his teammates pair off, while the only thing hes had his hands on lately is a computer keyboard. Even Sam, the Omega teams communications guy--who Matt only knows through daily instant messages--is going on missions while Matt sits home, bored and jealous. Until he finally gets a shot at an assignment in Dubai. As the only female on Omega team, Samantha Foster isnt surprised that the mission to Dubai is all hers. After all, only a woman can infiltrate a modern-day harem to ferret out a terrorist-minded mole. The big surprise is when shes sent along with a guests dinner as dessert--and finds Matt on the other side of the bedroom door. After he gets over the shock that Sam is a woman, Matt is more than happy to help her in any way he can. In the shower. In the bed. Oh yeah, and on the computer too. Warning: What happens in the harem doesnt always stay in the harem.
