

The influence of John Ruskin (1819-1900), both on his own time and on artistic and social developments in the twentieth century, cannot be over-stated. He changed Victorian perceptions of art, and was the main influence behind Gothic revival architecture. As a social critic, he argued for the improvement of the condition of the poor, and against the increasing mechanisation of work in factories, which he believed was dull and soul-destroying. The thirty-nine volumes of the Library Edition of his works, published between 1903 and 1912, are themselves a remarkable achievement, in which his books and essays - almost all highly illustrated - are given a biographical and critical context in extended introductory essays and in the *Minor Ruskiniana* - extracts from letters, articles and reminiscences both by and about Ruskin. This sixteenth volume contains essays and lectures on aesthetics.

British Columbia Trees & Wildflowers: A Folding Pocket Guide to Familiar Plants (Pocket Naturalist Guide Series), Exploring Niagara County, New York, Ground Zero Of Corruption: Corruption In Dc, Edward, Prince of Wales and Aquitaine: A Biography of the Black Prince, Fodors Citypack New York City, 3rd edition (Citypacks),
